**Surewet**<sup>TM</sup>

1000

**NON-IONIC ADJUVANT**

A surfactant for use with crop protection products to improve spray wetting, spreading and sticking.

**Active Ingredient:**

1000 g/litre alcohol alkoxyate.

**20 Litres**

## READ THE LABEL BEFORE USE

### HAZARD CLASSIFICATIONS: 6.1D, 6.3B, 8.3A, 9.1B

#### DANGER

Harmful if swallowed. Causes mild skin irritation. Causes serious eye damage. Toxic to aquatic organisms.

#### PRECAUTIONS

Keep out of reach of children. Avoid contact with eyes and skin. Do not breathe in the vapour or spray mist. Do not eat, drink or smoke during use. Wash hands thoroughly after use.

#### STORAGE

Store in the original tightly closed container in a secure area.

#### PROTECTIVE EQUIPMENT

When mixing or applying, wear chemical resistant overalls, boots, gloves, and eye protection. Wear a respirator if vapour or spray mist could be inhaled.

#### USE

Apply with well maintained and calibrated spray equipment.

#### DISPOSAL

Dispose of this product by using it in accordance with this label. Dispose of the container via AgRecovery after triple rinsing (use the rinsate for spraying). Do not burn. Do not use the container for any other purpose.

#### ENVIRONMENTAL

Take all reasonable steps to ensure that this product does not cause any significant adverse effects to the environment beyond the application area. Do not apply directly into or onto water. In the event of spillage, exclude non-essential people from the area. Wear protective equipment and prevent from entering drains. Contain and collect spillage for disposal.

#### FIRST AID

If medical advice is needed, have product container or label at hand.

If swallowed: Rinse mouth. Seek medical advice.

If on skin: Wash with plenty of soap and water. Seek medical advice if irritation occurs.

If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if easy to do so. Continue rinsing. Seek medical advice immediately.

If inhaled: Remove to fresh air and keep at rest in a position comfortable for breathing. Seek medical advice if feeling unwell.

For advice, call the Poisons Centre on 0800 POISON (0800 764 766) or a Doctor.

#### EMERGENCY RESPONSE

In an emergency call **111, Police or Fire Brigade**. For specialist advice in an emergency only, call **0800 CHEMCALL (0800 243 6225)** (24 hrs).

#### SAFETY DATA SHEET

Additional information is provided in the safety data sheet. Freephone 0800 ORIONAS (0800 674 6627) or visit [www.orionagriscience.co.nz](http://www.orionagriscience.co.nz)

### GENERAL INFORMATION

Surewet 1000 is a multi-purpose non-ionic surfactant that will improve the wetting, spreading and sticking of herbicides, fungicides and insecticides. It reduces the surface tension of the spray mix to allow it to cover the sprayed leaf surface more effectively. It is also useful in marginal conditions where plant leaves are hairy, waxy, dusty or weather hardened.

**WARNING:** Carefully check the primary product label this product will be used with for compatibility, rates and directions for use. As this product can increase the risk of crop damage, any directions given on the primary product label will take precedence over directions given on this label. Do NOT use on fruit crops, table grapes, ornamentals, or nursery plants unless crop safety is known. Be aware that Surewet 1000 may increase levels of russet in pip fruit and other russet prone crops.

### DIRECTIONS FOR USE

Situation	Rate per 100 L	Critical Comments
Herbicides	25 – 100 mL	Use the higher rate on waxy, hairy or hard to wet surfaces. Do NOT use with selective herbicides unless use of a surfactant is recommended
Insecticides, Fungicides and Plant Growth Regulators	25 – 75 mL	Use only when a surfactant is recommended. Use the higher rate on hard to wet surfaces, e.g., brassicas, onions, etc.
Grapes (Wine Grapes Only)	75 mL	Use only when a surfactant is recommended.

### MIXING

Add product to the partially filled spray tank after the addition of the primary product. Maintain agitation through filling and spraying.

### COMPATIBILITY

Compatible with most commonly used crop protection products.

### WARRANTY

This formulation is warranted to contain the specified ingredient within accepted analytical tolerance when packed. The user bears the risk for damage resulting from factors beyond the manufacturer's control. The manufacturer declines all liability for damage resulting from improper storage or use of the product.

Approved pursuant to the HSNO Act 1996, No. HSR002503
