- Fleabane
- Yarrow
- Plantain
- Willow Weed
- Docks

PLUS grasses, including:

- Paspalum
- Kikuyu
- Couch

SCAN FOR APPLICATION ADVICE

READ THE LABEL COMPLETELY BEFORE USE

Fast Action Weed Killer Ready to use is absorbed quickly through the leaves down to the root system, for rapid knockdown of a wide range of weeds and grasses.

FOR BEST RESULTS:
Apply when weeds are actively growing. Do not spray if it is raining or if rain is expected within 30 minutes. Perennial weeds may require additional applications to fully kill down to the root.

NOTE: Effects may take longer to show on some tough weeds or weeds treated in shaded areas.

IMPORTANT:
Only weeds that have visibly emerged at the time of spraying will be affected. Wait for 7 days after spraying before pulling out treated weeds or replanting. No residual soil activity, replant after 7 days post treatment.
Spray carefully. This product is damaging to all plants. Avoid contact with desirable plants, shrubs and lawns.

On lawn weeds, spot treatment only.

If accidental spraying does occur, rinse off with water immediately.

DIRECTIONS:
Shake well before use.

1. Remove trigger sprayer from the holster and unwind hose
2. On bottle cap flick cap off using gaps on sides to remove
3. Plug the sprayer into the cap hole securely to form a seal
4. Twist the nozzle to desired spray function
5. Point sprayer at weed and pull trigger to Spray weed until evenly wet
7. When finished, turn nozzle to off position
8. Wipe nozzle clean and return trigger to holster

Store in a cool, dry place below 30°C, out of direct sunlight.

ACTIVE INGREDIENTS
7.2 g/litre Glyphosate as the Isopropylamine Salt

HAZARD CLASSIFICATION
Hazardous to the Aquatic Environment Chronic Category 4

WARNING
May cause long lasting harmful effects to aquatic life.

PRECAUTIONS
Keep out of reach of children. Wear gloves and eye protection when mixing or using. Do not breathe spray mist. Keep people and pets away from the area while spraying. Wash hands after use. When applying, avoid spray going beyond the application area. Do not apply directly into or onto water. In the event of spillage, contain and collect for disposal. Not for use on food or animal feed crops.

FIRST AID
If medical advice is needed, have product container or label at hand. If swallowed: Rinse mouth. Seek medical advice if feeling unwell. If on skin: Wash with plenty of soap and water. Seek medical advice if irritation persists or a rash occurs. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if easy to do so. Continue rinsing.
Seek medical advice if irritation persists.
For advice, call the Poisons Centre on 0800 POISON (0800 764 766) or a Doctor.
